DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, 23-24, 39 and 43, drawn to a signal amplification system.

Group II, claim(s) 10-22 and 25-38, drawn to a method of selecting a molecule of interest.

Group III, claim(s) 40, drawn to a molecule of interest.

Group IV, claim(s) 41, drawn to a polynucleotide capable of expressing a molecule that interacts with a fused target ligand coupled with an enzyme.

Group V, claim(s) 42, drawn to a substance capable of stimulating or inhibiting the interaction between a ligand and a molecule of interest.

Group VI, claim(s) 44 and 45, drawn to a polynucleotide coding for the signal amplification system.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Pursuant to 37 C.F.R. 1.475(d), the ISA/US considers that where multiple products and processes are claimed, the main invention shall consist of the first invention of the category first mentioned in the claims and the first recited invention of each of the other categories related

Application/Control Number: 09/555,649

Art Unit: 1645

thereto. Accordingly, the main invention (Group I) comprises the first-recited product, a signal amplification system. Further pursuant to 37 C.F.R. 1.475(d), the ISA/US considers that any feature which the subsequently recited products and methods share with the main invention does not constitute a special technical feature within the meaning of PCT rule 13.2 and that each of such products and methods accordingly defines a separate invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
